EDUCATION

B.E, CS&E 2023, UBDT College, Davanagere
7.5 CGPA

CAREER SUMMARY

Dynamic individual with hands-on experience in Software Development. Possess talent for effectively navigating challenges. Strong problem-solving skills and proactive approach enable tackling new tasks with confidence. Recognized for adaptability, creativity, and results-oriented mindset. Committed to making meaningful contributions and advancing organizational goals.

TECHNICAL SKILLS

- Java
 - Spring Boot
 - RESTfull API
 - Microservices
 - HTML and CSS
 - JavaScript
 - React.js
 - MySQL
 - Git
 - Docker Basics
 - Linux Basics
-

PROJECTS

Smart Contact Manager

[[GitHub – Smart Contact Manager Repository](#)]

Technologies: *Spring Boot, Thymeleaf, JavaScript, MySQL, Spring Security, OAuth2*

Built a web-based contact management system with secure OAuth2 authentication and role-based access. Integrated MySQL for efficient data handling and used Thymeleaf for dynamic UI rendering.

Real-Time Chat Application

[[GitHub – Real Chat Application Repository](#)]

Technologies: *Spring Boot, React.js, JavaScript, MySQL, WebSocket, StompJS, SockJS*

Developed a real-time chat app with WebSocket-based messaging and React.js frontend. Implemented user authentication, private/group chat features, and ensured low-latency communication.

WORK HISTORY

Software Developer at Bharat Electronics Limited (BEL), (07/2024)-Present

Smart Education System

Technologies: *Flask, Angular, PostgreSQL*

Built core modules for a Smart Education platform, including secure teacher login and student management features. Collaborated with the frontend team to integrate Flask APIs with Angular UI. Used PostgreSQL for structured data handling and optimized queries for performance.
